Collections

We offer three distinct product lines, ensuring a perfect match for every campaign. Our collections range from the swift, high-quality Classic and the locally-produced, sustainable Nature line, to cutting-edge, tech-integrated accessories of the Future collection.

Classic

The Classic Collection delivers uncompromising quality with industry-leading lead times. Our best-selling essentials are ready for dispatch within 2 business days.

Classic models are loved for their practicality, high-quality sublimation, vibrant colors, and impressive durability.

Nature

Lanyards from the Nature Collection use natural raw materials (e.g., cotton, cork) and rPET yarn containing min. 20% recycled content.

By choosing this product, you support production that is local to Poland, ensuring lower transport emissions and full supply chain transparency.

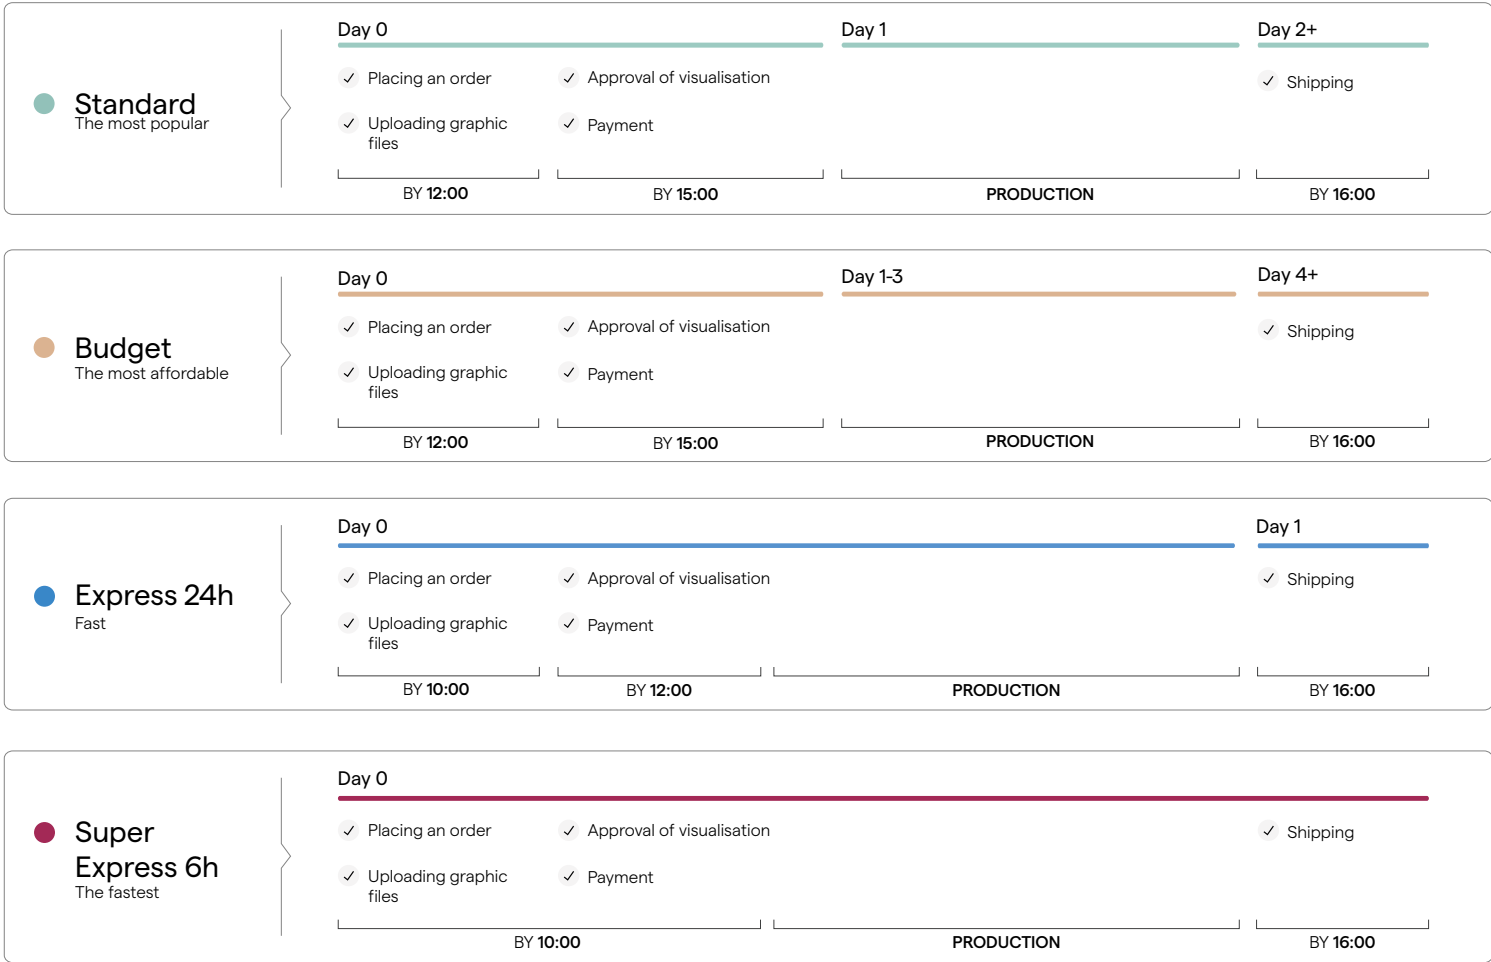

Future

The Future Collection integrates smart technology into daily essentials, featuring NFC-enabled hardware and USB-C charging lanyards for the modern professional.

Driven by our „Digital first” approach, this collection blends advanced functionality with sleek, modern design.

Tap into the Future

✦ Future

The Future is here

Discover the new NFC sticker with your data

About the product

The NFC sticker is a tiny chip placed on the tag of your wristband or lanyard. It lets you save and read data on a smartphone, e.g. a website link or your contact details.

How to program the NFC sticker?

Where can you use NFC technology?

- Contactless payments with your phone
- Access control and electronic keys
- Business cards, contact details, websites
- Pairing devices via Bluetooth and Wi-Fi

Why choose our product?

Short range

Works only from close distance, which increases security.

No battery needed

The tag is powered by the phone's electromagnetic field.

Easy to use

Simply bring the phone close to the sticker to read the data.

**Sustainability is more
than a product →**

Nature

By choosing rPET material,
you reduce the number of plastic bottles
Up to 3 bottles (500 ml each) are used
to produce 1 linear meter of rPET tape.

Yes, we care

We have expanded our collection with new nature materials: cotton, bamboo, cork, paper, and buckles made from straw.

With beautiful designs, durability, innovative marking methods, and sustainability-wise production, this collection will impress your clients.

Check out our new arrivals.
