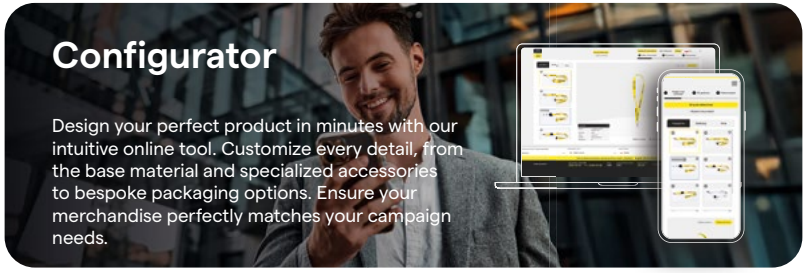
PART 2/2

Why us?

SPEED BY DESIGN

We are defined by "Speed by Design”
and guided by "Digital first, service strong, sustainability-wise”. Our entire process
is engineered for efficiency, combining
advanced online tools with in-house technology
to deliver fast, on-demand production from
mockups in minutes to dispatch in 6 hours. This
rapid service is coupled with a deep commitment
to environmental responsibility, evidenced by our
80% solar-powered facility and our use of certified,
low-impact materials. Choose us for speed, quality,
and proven, sustainable manufacturing.

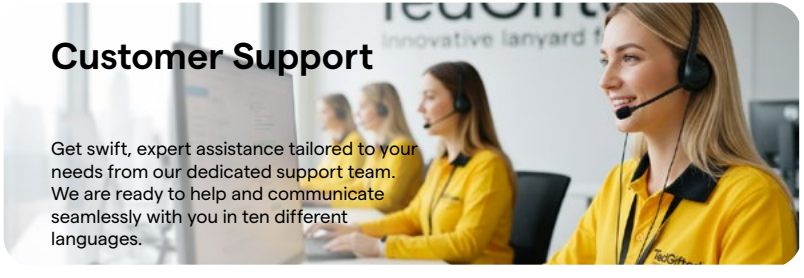


Configurator

Design your perfect product in minutes with our intuitive online tool. Customize every detail, from the base material and specialized accessories to bespoke packaging options. Ensure your merchandise perfectly matches your campaign needs.

Production in Europe

Benefit from local manufacturing in Poland, which guarantees short supply chains, low transportation emissions, and full transparency. Our production adheres strictly to robust EU labour law standards, ensuring ethical practices and the highest quality control.



Customer Support

Get swift, expert assistance tailored to your needs from our dedicated support team. We are ready to help and communicate seamlessly with you in ten different languages.

Everything with us

We offer a complete, end-to-end service that covers your entire branded accessories journey. From instant digital mockups and rapid, quality-controlled production to certified sustainable sourcing and final delivery, we handle everything under one roof.

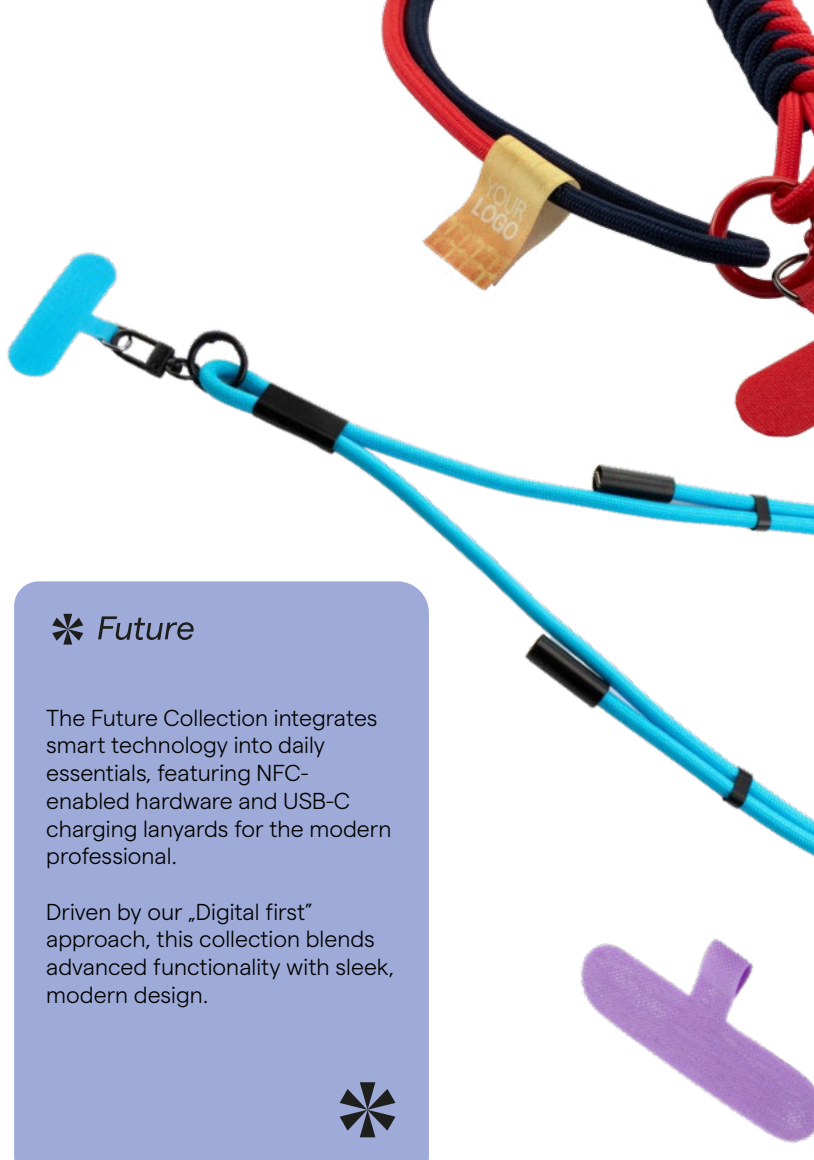
Collections

We offer three distinct product lines, ensuring a perfect match for every campaign.
Our collections range from the swift, high-quality Classic and the locally-produced, sustainable Nature line, to cutting-edge, tech-integrated accessories of the Future collection.



Classic

The Classic Collection delivers uncompromising quality with industry-leading lead times. Our best-selling essentials are ready for dispatch within 2 business days.

Classic models are loved for their practicality, high-quality sublimation, vibrant colors, and impressive durability.

Nature

Lanyards from the Nature Collection use natural raw materials (e.g., cotton, cork) and rPET yarn containing min. 20% recycled content.

By choosing this product, you support production that is local to Poland, ensuring lower transport emissions and full supply chain transparency.

Future

The Future Collection integrates smart technology into daily essentials, featuring NFC-enabled hardware and USB-C charging lanyards for the modern professional.

Driven by our „Digital first" approach, this collection blends advanced functionality with sleek, modern design.

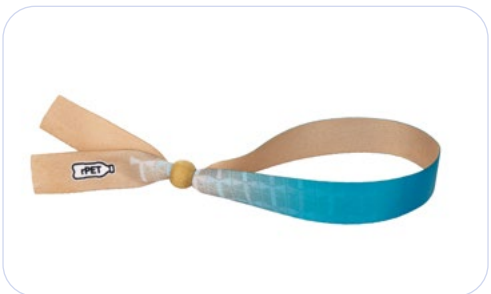
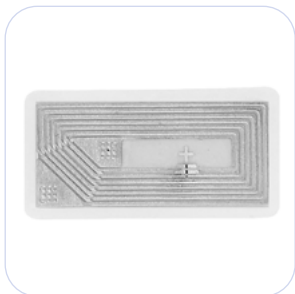
How to make it work?



Pick your wristband

Personalise your NFC tag



Stick, tap and go

✻ *Future*

The Future is here

Discover the new NFC sticker with your data

About the product

The NFC sticker is a tiny chip placed on the tag of your wristband or lanyard. It lets you save and read data on a smartphone, e.g. a website link or your contact details.

How to program the NFC sticker?

Where can you use NFC technology?

- Contactless payments with your phone
- Access control and electronic keys
- Business cards, contact details, websites
- Pairing devices via Bluetooth and Wi-Fi

Why choose our product?

Short range

Works only from close distance, which increases security.

No battery needed

The tag is powered by the phone's electromagnetic field.

Easy to use

Simply bring the phone close to the sticker to read the data.
